

# Gurunanthan Rameshkumar

## Web Developer

motivated and eager beginner who is passionate about web development. While I may not have extensive experience yet, I'm a quick learner and am committed to developing my skills and knowledge in Web development. I have a strong work ethic and am always willing to take on new challenges to grow and improve. I'm excited to explore opportunities that will allow me to learn from experienced professionals and contribute to a team's success.

## PERSONAL PROJECTS

### Farming Agro Web Services

- a website that enables farmers to establish a connection with their own customers directly in order to increase their profits

### to-do website

- Developed a JavaScript-based to-do app to help users manage and prioritize daily tasks. Implemented key features such as task creation, due dates, and priority levels

### Dice-Game

- used Native JS to create a dice game where two players roll the dice simultaneously.
- If both rolls are the same, the player with the highest number is declared the winner and the game is a draw.

### 3D - Portfolio using threejs

- Built a 3d portfolio using three.js new technology used to develop website with 3d animations with help of WebGL

## SKILLS

Front End Development

UI/UX Design

API Creation

3D Designing

WebGL

HTML

CSS

JAVA

JavaScript

Github

express

node
